

INTENSIVE LIFE TRAINING 2011-2012

Capitalize on Chaos and Change!

Dramatic times of change and simple evolution require a new set of life skills. Nothing is the same, everything is changing so quickly it is no longer business as usual. Take action now — The world will never return to normal — you must adapt to every opportunity. Doing things the old way is the enemy of innovation — what you know that isn't so must go. Expecting things to be the same blocks the adaptation of new solutions. Culture overwhelms strategy, culture eats strategy for breakfast.

You Must Break the Rules that Paralyze Your Life.

This experiential series is about powerful concepts and vivid experiences that stimulate your creativity, and ultimately position you as a trend-setter, as you learn to capitalize and profit from chaos and change. You emerge the leader who ignites innovation while others flounder in a sea of uncertainty. We get proven results. Strategies no longer work, it is culture that trumps everything else and succeeds today.

If you know who you are, you will weather all types of chaos and change. Strategies and techniques for gaining personal power are like dinosaurs, they are things of the past. You must be able to see trends and new opportunities to succeed in the chaos of today's high-speed world. Complacency is seductive and blinds us to the energy of innovation and reinvention.

The big seminar guys tout the old school win-lose thinking — ego inflation through personal power. They never tell you that they have a failure rate of 97% with their strategies, which are out of date and ineffective in our vastly changing environment.

The experiential culture we share in the Intensive has a success rate of over 95% in the short term and 99% in the long term. We are about culture, community, communication, results and fun!!! You learn to work together as a highly functional team and everyone prospers.

This is the Mystery School of the Ages

The fact is, as a result of the revolutionary interconnectedness of the internet we're in unknown territory. And we don't yet have the roadmap for the new terrain. Our current social systems no longer prepare us to live a life of true purpose in times of such

dramatic change. That's because today's culture exists not to nurture our highest aspirations, but to ensure a strategy of basic survival.

Our educational system is designed to create workers who fit into a slot, into jobs and careers later in life—rather than to empower passionate, creative people who are forging a new cultural path together. Our social contracts exist to perpetuate the status quo—rather than encourage our highest potentials to blossom.

This is why so many people's best attempts to evolve themselves and our culture fall short of the goal? We simply haven't been trained in how to bring the possible future into the present. Fortunately, there are a few very rare individuals who are charting the path for human beings to make this shift—personally and globally.

Indeed, a handful of experts have been decoding the secrets of how to activate our higher human potentials in order to make a massive shift, a difference in the world.

Few have more experience helping individuals live their unique purpose in life—no matter how "hopeless" they may think their situation is—than Dr. Karl Wolfe. For over 30 years, Karl has been uncovering the underlying codes of how to live a truly remarkable life.

The Intensive meets once a week, for four hours, on Sunday, with an all-day class every six weeks. This weekly deep immersion with two hours of movement and two hours of the group energy dynamic, is the key to repatterning the nervous system and sustaining a new cultural awareness. Therapy and motivational seminars deal with symptoms and strategies. Only the quality of the story changes over time. This process is radically different. This is an initiation into the alchemy of the ancient mystery school of the ages. We turn lead into gold.

- Increase your creativity—create more and at a higher level...
- Discover deep sources of emotional and physical healing...
- Access multiple forms of intelligence and knowing, experience life with greater richness and dimensionality...
- Hold a perspective that fills you with compassion, empathy, patience, and wisdom—no matter how challenging the situation...
- Tap into energetic sources of ancient wisdom that help you appreciate the sacredness of each moment and navigate your life today...
- Activate your latent human potentials in order to lead the way into the future and leave a powerful legacy...
- Realize a permanent sense of connectedness with all that is, and living from that place of higher wisdom and true connection...

Things improve because this process goes to the root cause of all suffering. Your whole outlook on life changes, because as a community, you turn what were formerly perceived as problems into spiritual power. That's the secret of a happy and successful life.

Video and Thermionic Field Therapy

Through video, we visit your inner ghosts, demons, guides and shaman. We demystify the dysfunctional mythologies of language, culture and your ancestors. We encourage taking creative risks, and being willing to make mistakes — If you are willing to do it wrong, you dramatically accelerate your learning curve and results.

Breaking one rule that binds you can change everything overnight. Through movement, dream interpretation, the imagery of the tarot and the group dynamic, we explore the basic concepts of personal mythology that block access to full self-actualization.

Adaptive Inner Culture and Innovation

If you live in a culture of strategy and technique you will be rigid and immutable. Invoke an adaptive inner culture and your life will evolve quickly into a spectacular innovative journey.

Albert Einstein once said:

Out of clutter, find simplicity.
From discord, find harmony.
In the middle of difficulty lies opportunity.

The only thing slowing you down are the invisible rules that bind you.

Join us for your initiation into The Mystery School in the next six month Intensive Life Training in Los Angeles, on Sunday, November 20, 2011. The tuition is \$15,000. Space is very limited. A \$1500 deposit is required to reserve your place. The deposit and tuition are non-refundable.

Testimonials:

Happy and Successful

"There is before Karl and after Karl. No money, never a relationship and years of searching for happiness, and now happy and successful in all areas of life; business, personal and relationship."

-Rex R.

Catalyst for Evolution

I had another interesting breakthrough today on some old mythologies. It's just amazing to me how well this works with your work and the intensive. It is such a huge catalyst

in evolution! I feel as though I am transforming into a whole new species!

-Yelena S.

Now I have a Wonderful Life!

Whenever I speak about personal development I always say that being "cured" by a shrink is impossible... The most profound development I've had is with Karl's classes and his Intensive Life Training.

Deep down inside I knew there was something wrong and needed to change. Even though I made lots of money, and could do whatever I wanted, finding happiness and a loving companion eluded me. After the Intensive and working with Karl, I am happily married with a beautiful wife and child. We now have the home I always dreamed of and live in Monaco. Thank you for my life.

I had done every training there is!

Having done many varieties of personal growth, I can say with confidence that Dr. Karl Wolfe's Beyond the Edge™ and The Next Step™ are the most transformative you can find. The catch is that you must truly want to change your life and give up old patterns. I clung to patterns I didn't even recognize, but only saw the results of not getting the money, love, and fulfillment I knew I wanted. In just a few months of working with Karl, I find the ways I was making myself suffer fall away every single day. Then seemingly without effort I am richer, loving every breath of life, and deeply fulfilled utilizing gifts I didn't even know I had.

-Jennifer B.

Loving and Courageous

"During the Intensive, the judgement and shame that had accumulated in my life began to feel inaccurate and unnecessary, allowing me to fall hopelessly in love with a newly discovered, innocent self: a self that feels unapologetic, immensely loving and courageous in it's ability to connect with others."
